

KOKA LAGOON CRUISE

Rarotonga

Imagine setting out across the beautiful turquoise waters of Muri Lagoon aboard Koka Lagoon Cruise's spacious glass-bottom boats, serenaded by the smooth sounds of the crew's string band. Without a doubt, it's the perfect way to experience Rarotonga from the water and witness the colour and life of the magical lagoon.

Locally made, Koka Lagoon Cruise's modern, spacious, and comfortable glass-bottom boats are built with sturdy steel frames and natural roofing, designed to be strong yet blend subtly into the island surroundings. With generous legroom, secure handrails, life jackets, and easy-access steps for boarding from both beach and water, the boats are wheelchair-compatible, elderly-friendly, and suitable for all ages.

Koka Lagoon Cruise donates a percentage of all sales to marine conservation and has earned a reputation for delivering an authentic island experience and exceptional customer care, supported by numerous awards.

Guests are entertained from start to finish by the talented crew. The journey begins with a glass-bottom boat ride to the Tikioki Marine Reserve, where guests can swim and snorkel among coral gardens, giant clams, and tropical fish.

With onboard entertainment, the cruise to Koromiri Islet keeps everyone smiling. A delicious BBQ lunch awaits, followed by an impressive coconut tree climbing show, demonstrations of the many uses of the coconut, and a fun pareu-tying experience. The day ends with a joyful cruise back to the mainland, filled with music, laughter, and smiles all around.
